- Adobe Photoshop

## PROJECTS

### Vaccination System :

Aug 2023 - Sep 2023

The Vaccination Booking System is a comprehensive web-based platform developed using PHP and Laravel, aimed at streamlining the process of scheduling and managing vaccination appointments. The system is designed to cater to both users and administrators, ensuring a seamless experience for booking and managing vaccination slots.

### Institute of Fine Arts Management System:

Dec 2023 - Jan 2024

The "Institute of Fine Arts Management System" is a web application designed to streamline the management and operational processes of the Institute of Fine Arts, a prestigious institution founded by two experienced professionals in the fields of animation and fine arts. The institute offers courses and conducts competitions to nurture creativity among students by encouraging them to produce original artwork accompanied by self-written quotes, poems, or stories.

### Expense Voyage Trip Planner:

Dec 2023 - Jan 2024

Expense Voyage is a comprehensive web application developed using Laravel, designed to facilitate efficient trip planning and expense management for individual and group travelers. It offers a user-friendly platform that simplifies the management of travel itineraries, expenses, and budgets. The system provides real-time expense tracking, dynamic pages for trip details, and extensive reporting and analytics features to ensure a seamless travel experience.
