# <PROJECTS>

---

## 1-Portfolio (Personal)

<https://hasnainportfolio.ahminnotech.com>

Created a dynamic portfolio using PHP Laravel for the backend and (HTML ,CSS , JS) for the frontend. It handles smooth animations, interactive design, and a responsive layout, showcasing my skills and experience.

!!Another version will updated soon

## 2-Restaurant Management System

<https://dinedigital.ahminnotech.com>

We created a Restaurant Management System By Using Frontend Tools And MVC Laravel . Includes a dynamic website , an owner panel , manager panel , rider panel and also a web app for dine in services

## 3- Ecommerce Clothing Brand (Muslimeen Outfits)

<https://muslimeenoutfit.com>

E-commerce Website Created For Client By Using Frontend Tools And MVC-laravel. Includes a Dynamic Website and Admin Dashboard

## 4- Software Agency Website

<https://ahminnotech.com>

Our Official Company Website By Using Frontend Tools And .NET CORE MVC. Includes a dynamic website with dashboard.

!!But current it is on laravel , will soon converted into ASP.net Core MVC

## 5- Puppy's Blog Website

<https://ahm-developers.github.io>

Our first Blog Website based on puppy's details , it was very first experience on project working , basically creted on HTML ,CSS , JS
