Expertise

- HTML & CSS
- JavaScript
- GitHub
- Responsive design
- PHP & MYSQL
- Laravel

Aspiring Web Designer with a passion for creating interactive and visually appealing websites. Skilled in HTML, CSS, and front-end development, I focus on building responsive layouts for an engaging user experience. As a beginner, I am expanding my knowledge in SEO techniques to improve website performance. Additionally, I have foundational skills in PHP, MySQL, and Laravel, and am eager to contribute to projects that align with user needs and business goals.
