ABOUT ME

I am Muhammad Azhan, a dedicated student of Computer Science. I have completed my matriculation and currently pursuing my intermediate studies. Additionally, I am continuing my diploma in IT from APTECH. My academic background and ongoing training in computer science and IT have provided me with a solid foundation and a keen interest in technology. I am excited to apply my skills and knowledge in practical and impactful ways.I am looking for my first work experience.

PROJECTS

- Frontend E-Commerce Website Development (NOV 2023 - DEC 2023)
